

Tiguan Allspace

Space explorer

There's a whole world out there and sometimes you need to take more with you to enjoy it to the fullest.

Take more people you care about, pack more stuff and see more horizons in the Tiguan Allspace. With 7 seats, a wheelbase that's longer by 110mm, an overall extension of 215mm, foldable seats and larger boot space, you'll always be able to live life at full capacity.

Style & luxury

More luxury on every level.

State of the art technology

The latest and greatest VW technology.

Infotainment packages

The ultimate in connectivity.

Safety first

Safety made to be so much more.

Allspace **All style**

The Tiguan Allspace's design is a progressive balance of beauty and brawn.

Its modern profile is fitted to a new base that's now longer, wider and lower, creating more interior space. For an SUV, it's sportier and more powerful-looking with flared wheel arches, body-coloured bumpers and horizontal chrome bars.

The large interior embodies urban refinement with top-end design finishes, modern comforts and loads of room. It features a panoramic sunroof that you can tilt or slide with just the touch of a button.

With high-end features like an ergonomic leather-covered steering wheel, cruise control, seat configuration and , you'll always want to go big on life.

The art of **technology**

Navigate your day to the fullest, with ease. The Tiguan Allspace features useful technology like keyless entry, multi-function camera, mobile phone interface and a multi-function "Premium" display with colour display.

App-Connect

App-Connect links compatible smartphones to use selected apps on the touchscreen display of your Volkswagen, from streaming music to navigation using mobile maps.

In touch with the future

The Tiguan Allspace is designed to connect you fully to your world and your driving experience.

Your music, apps, cellphone and the places you need to go to are all easily synced with the Composition Media infotainment system. It's complete with an 8" high-resolution display and 2 USB interface that works with an iPod/iPhone, 1 USB charging socket, AUX-IN jack, Bluetooth, SD Card and MP3.

The "Discover Pro" 9.2" touchscreen has a cutting-edge satellite navigation system that also connects to a DVD drive, Bluetooth and has a USB interface for iPod/iPhone with our smartphone software.

*Composition Media is standard on selected Comfortline and Highline models.

Safety in a **different class**

The Tiguan Allspace is one of the safest SUVs in its class. The safety cage has been designed to protect passengers on every side with reinforced steel B-pillars and smart technologies like Curtain Protection[®] that react to the force of a side collision and deploy side airbags.

Another very innovative safety feature is the Rest Assist fatigue detection system that makes sure you're concentrating and alerts you when you're not.

High Beam Control "Light Assist"

Turns the High Beam on or off so it doesn't affect other drivers.

*Standard on selected Comfortline and Highline models.

The power of **4MOTION®**

The Tiguan has 4MOTION® which constantly monitors driving conditions and adjusts the power delivery to wheels accordingly.

It works with Hill Descent Control to detect any wheel slips or loss of traction and makes for safer, better off-road performance.

4MOTION® Active Control

Adjusts to specific road conditions.

Automatic Profile

With Driver Profile Selection, you can choose a preferred setting that fits your driving lifestyle. Choose a setting that can change the Tiguan's whole performance between Normal, Comfortable, Sport or Eco mode.

Off-road driving profile

You can also choose a unique four-wheel drive mode, depending on the terrain. Modes cover uneven road surfaces and areas with poor traction. In addition, you can set a unique off-road version that customises Hill Ascent Control.

Allspace **All comfort**

With another row that seats 3, the Tiguan Allspace fits 7 comfortably.

It has all the room you need for the family, the dog and extra space for those unexpected luggage moments. Never run out of space, or the desire to explore.

Load through facility

The third row seats can be dropped down for items that are very long.

LED tail lights

The LED tail lights are an additional design highlight.

More seats **More adventure**

The Tiguan is generous on space in all facets. With 615 litres of boot space, the rear folding seats increase that volume to 1,655. The rear seats are also slidable and can split-fold. Well-thought-out, the central arm-rest even folds down so long items can be slid into the cabin from the back of the car.
