

Touareg

Designed for the **restless spirit**

Made to enjoy every moment on the road, the Touareg is a luxury car that is built on an understanding of how precious every second of your day is. Enjoy this exploration of luxury, innovation, design and beauty. With bold new class-leading features, the Innovision Cockpit will keep you searching for more.

Drive and performance

More than generous on power and torque.

Innovision Cockpit

The ultimate driving control centre.

Luxury and comfort

A space to enjoy and make your own.

Technology & Innovation

Connected on another level.

Style and design

An exploration of eye-catching.

Safety

Comprehensive safety features.

*DCC adaptive chassis control systems, Adaptive Cruise Control with Front Assist are not available for Sub-Saharan African markets.

Designed for the **smoothest ride**

Exploration is exhilarating in
the Touareg.

Whether you're searching for new ideas in the city or just chasing the horizon, you'll be in the power seat. Powered by a 3.0 TSI engine with 250kW, you can drive with confidence. Because driving is so personal, you can tailor your driving settings with six different intelligent modes.

4MOTION® technology

The legendary, patented four-wheel technology that changed the game. With it, traction is under complete control.

Designed for comfort

**Refined, modern and practical,
the interior of Touareg excels in
all areas, luxury being
no exception.**

With more room than the previous model and precision craftsmanship like the matt black silver-inlaid centre console, the Touareg is comfortable in its own skin. From the ergoComfort seats with 4-way electrically adjustable lumbar support, you can create your own atmosphere with Climate Control using the leather-trimmed multi-function steering wheel.

Ambient Lighting

Your car, your mood, with the standard Ambient Lighting package that'll illuminate the interior of the vehicle in a choice of 30 striking colours.

Designed to **be seen**

The Touareg's distinctive contours, tail light clusters and chrome trapezoid tailpipes are all part of an overall design expression that explores one thing: beauty. There are powerful visual features like a black-painted radiator grille and stainless steel loading that paint an elegant picture. The Touareg is visually striking and with finishing touches like a panoramic sunroof, leather seats and gear paddles, you can see why you'll be noticed in it.

Designed to connect

Refined, modern and practical, the interior of Touareg excels in all areas, luxury being no exception.

With more room than the previous model and precision craftsmanship like the matt black silver-inlaid centre console, the Touareg is comfortable in its own skin. From the ergoComfort seats with 4-way electrically adjustable lumbar support, you can create your own atmosphere with Climate Control using the leather-trimmed multi-function steering wheel.

Designed to advance

The convenient technology in the Touareg offers you a range of customisable systems like the digital interface and multi-function steering wheel that are all part of our exploration of innovation. Plenty of the useful standard features simply make life easy, like keyless access to the boot at the touch of a button or with a flick of your foot. The radio and navigation on the Discover Pro Navigation touchscreen system is displayed on a 9.2" colour screen that responds to touch, voice and gesture. It's easy to get used to progress.

Designed for **peace of mind**

The Touareg is designed for a safer drive and it's fully equipped to reduce risks in many different areas of driving in order to protect the passengers and the value of your car.

Driven by our drivers

Every stylish curve, every sophisticated technology, every driver intelligence feature and the powerful drive are built on a vision of what our drivers need, what they want and what will make their experience that much more compelling. The third-generation Touareg is the result of that vision.
