Know you've arrived

Progress looks different for everyone. For some it's the corner office. For others, it's the freedom to go where the weekend takes you. The T-Cross was built for both, and everything in between.

Built to be as adaptable as you are, it transitions seamlessly from the rhythm of the weekday commute to the spontaneous freedom of weekend escapes. It is functional, flexible, and designed to handle whatever the day demands in effortless style. For the big dreamers, the bold doers, and the active explorers who want it all: this is an SUV built to keep pace with your life, wherever it takes you.

Designed to **be looked at**

The T-Cross announces itself before you step out of it. At the front, a distinctive 3D grille with chrome detailing and signature LED headlamps frame a stance that is athletic and assured. The sculpted side profile, defined by clean shoulder lines and striking alloy wheels, carries that confidence all the way to the rear, where infinity LED tail lamps sweep from edge to edge, leaving an impression that outlasts the drive.

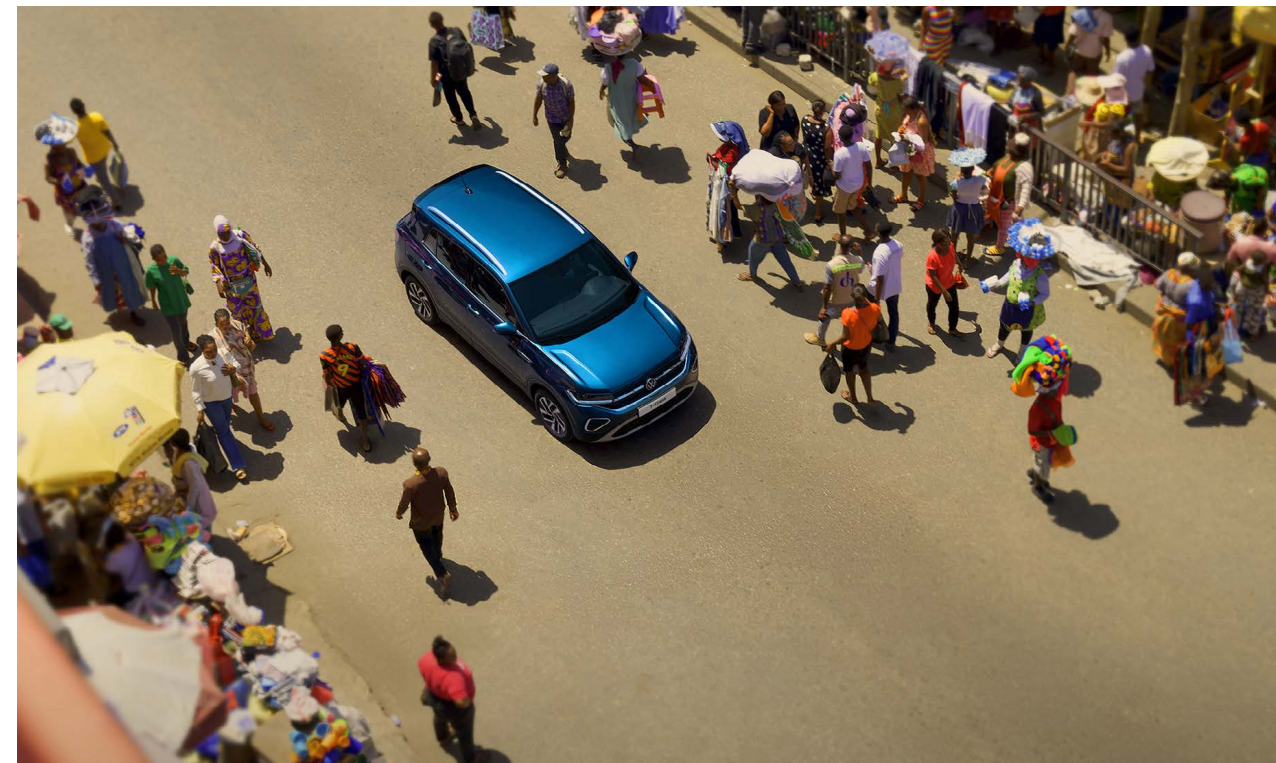

Inside, the T-Cross proves that a compact SUV doesn't have to feel like one. A 373-litre boot handles everything you need to bring, and folding rear seats means there's always room for more. Door storage, dedicated device holders, and a considered cabin layout put everything in its place, so your attention stays exactly where it belongs.

Effortless Power, **Confident Presence**

True confidence doesn't need to shout. The T-Cross makes its presence felt through a turbocharged engine delivering 81 kW of responsive power, enough to move through city traffic with ease and command the open road with authority.

Enhanced by innovative regenerative braking, this is performance engineered for those who move through the world with purpose. Whether navigating bustling urban streets or cruising dusty backroads, the T-Cross responds with effortless grace. Wherever you choose to go, make it clear that you've arrived exactly where you belong.

Embrace a more **connected drive**

Know you are in full control with a customizable 8-inch digital cockpit that delivers real-time driving data in your preferred analogue or digital format. The 10-inch touchscreen infotainment system brings music streaming, and hands-free calling together in one intuitive interface, while Wireless App Connect syncs your devices the moment you get in.

The ergonomic layout of the T-Cross ensures your eyes stay on the road, with a rear-view camera system always ready to get you out of tight spots. And when it's time to turn the energy up, 6-speakers and a powerful subwoofer deliver rich and immersive audio.

Safe and **smart**

The available Safety and Security package brings intelligent driver-assistance technology to every journey. Cruise control with speed limiter takes the strain out of longer drives, while Park Assist with Park Distance Control handles the end of every trip with precision.

Technology that works quietly in the background — so you can focus on where you're going.

Wheels, colours & paint finishes

*The illustrations on this page can only be regarded as a general guide as digital rendering is unable to fully express the depth and brilliance of the paint finishes with definite accuracy.

16" Belmont Alloy
(Standard on Comfortline)
